**PINDUODUO**

is a Chinese mobile application for collective and individual purchases.

# PINDUODUO

Its key feature is the ability for people to join groups and thus buy items at lower prices. Products on this marketplace can be cheaper than on Taobao and 1688 due to providing buyers with subsidized discounts.

Pinduoduo does not offer international shipping of goods to other countries worldwide. However, with Meest China, you have the opportunity to receive goods in South African Republic by specifying our warehouse address as the delivery address in China.

# TRACK NUMBER REGISTRATION IN THE MEEEST CHINA APPLICATION

**THE TRACKING NUMBER** is a unique code for your parcel that was sent to China. Thanks to it, warehouse staff can identify the goods and add them to the corresponding client's account.

If the track number registration is not completed, the goods are received at the warehouse and added to your account as unidentified. After that, you need to remember which goods you ordered before, and when there are several goods, this slows down the identification and delivery of parcels.
