## TAOBAO

is one of the largest and most popular domestic platforms for online shopping in China.

# TAOBAO

The marketplace offers a wide range of products, including clothing, electronics, household items, cosmetics, toys, and much more at competitive prices. To browse products on the platform, registration is required.

Taobao does not offer international shipping of goods to other countries worldwide. However, with Meest China, you have the opportunity to receive goods in South African Republic by specifying our warehouse address as the delivery address in China.

Taobao is an internal Chinese website where English language is not available. Therefore, you will need a translator.

The most convenient option is to use the Google translate. 

You can take a screenshot of any page, then go to the Google app and press "Translate Image". Now you can see the translation of the page.

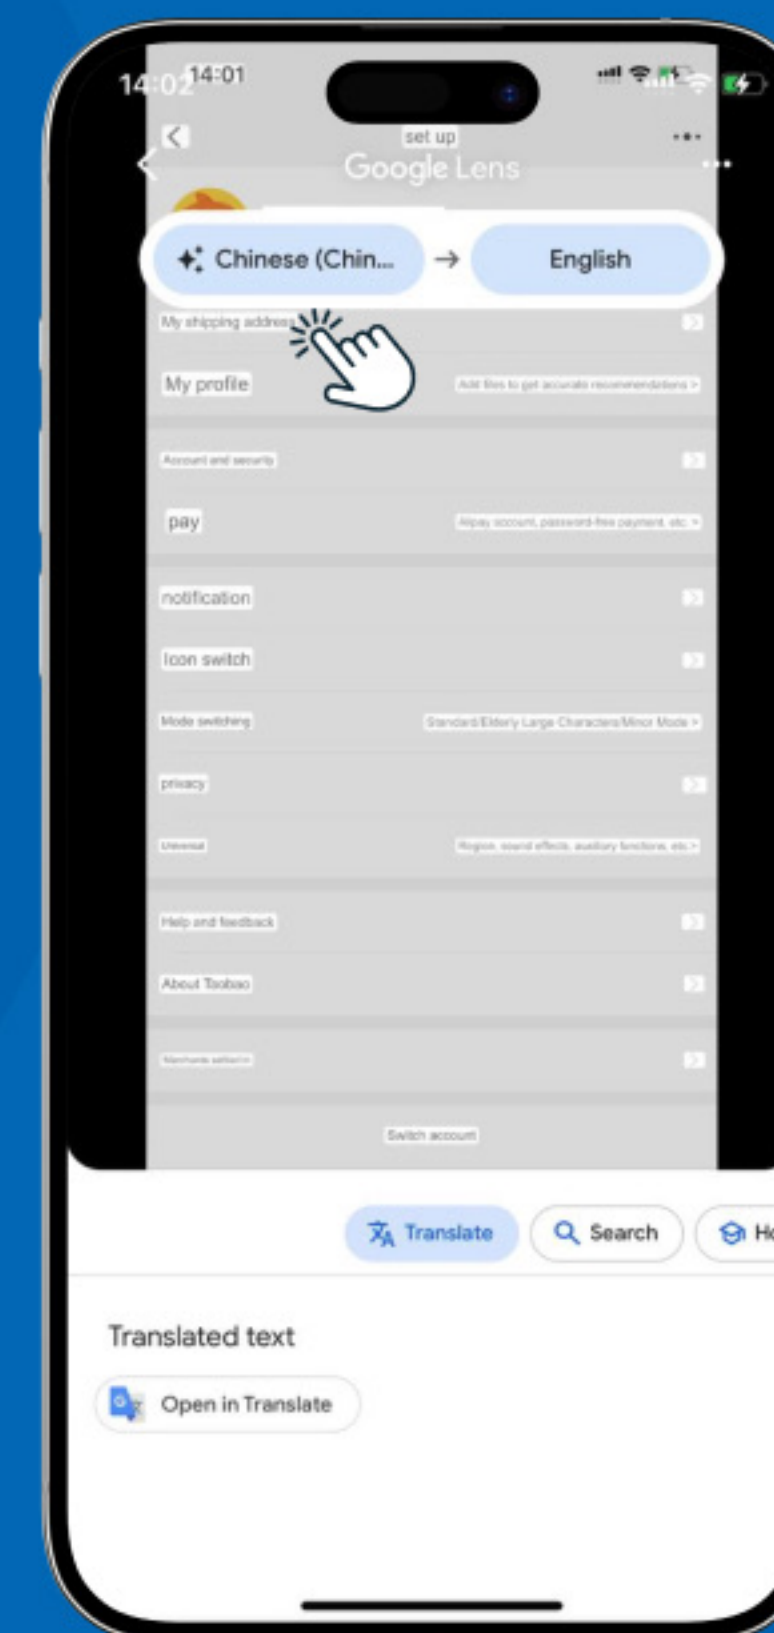

# ADDING A WAREHOUSE ADDRESS

When you create an account, you need to specify our warehouse address as the delivery address in China.

To do this, you need to:

- ➔ At the bottom of the screen, click on the button “My Taobao” 
- ➔ Click on the gear in the top right corner 
- ➔ Click on the first button at the top, “My shipping address”.

# ADDING A WAREHOUSE ADDRESS

- ➔ Enter the receiver's name and the ID of your Meest China personal cabinet (crucial step).

You can get it after creating an account on our website.

- ➔ In the next field, you should enter the phone number of our warehouse (without China code +86, it's already there).

# ADDING A WAREHOUSE ADDRESS

➔ The next step is to select the Mainland China region, the correct province, city, district, and street.

- Mainland China is **the first button from the left.**
- Next, scroll down to the letter **G** and choose **广东省 (Guangdong)**

# ADDING A WAREHOUSE ADDRESS

# TRACK NUMBER REGISTRATION IN THE MEEEST CHINA APPLICATION

**Meest**  
China

**THE TRACKING NUMBER** is a unique code for your parcel that was sent to China. Thanks to it, warehouse staff can identify the goods and add them to the corresponding client's account.

If the track number registration is not completed, the goods are received at the warehouse and added to your account as unidentified. After that, you need to remember which goods you ordered before, and when there are several goods, this slows down the identification and delivery of parcels.
