INSTRUCTIONS

FOR WORKING IN THE MEEST CHINA APPLICATION

From registering the track number to receiving the package in your country

TRACK NUMBER REGISTRATION IN THE MEEST CHINA APPLICATION

THE TRACKING NUMBER is a unique code for your parcel that was sent to China. Thanks to it, warehouse staff can identify the goods and add them to the corresponding client's account.

If the track number registration is not completed, the goods are received at the warehouse and added to your account as unidentified. After that, you need to remember which goods you ordered before, and when there are several goods, this slows down the identification and delivery of parcels.
